

## Brief CV

<b>Name</b>	Shiuh-Chuan Her	中文名	何旭川	 PHOTO
<b>Gender</b>	Male	<b>Title</b> (Pro./Dr.)	Professor	
<b>Position</b> (President...)	Chairman	<b>Country</b>	Taiwan	
<b>University/ Department</b>	Yuan Ze University/Mechanical Engineering			
<b>Personal Website</b>				
<b>Research Area</b>	Nanocomposites, Fracture Mechanics, Optical Fiber Sensor, Piezoelectric Actuator			
<b>Brief introduction of your research experience:</b>				
<p>The research interests of Shiuh-Chuan Her are mainly in the areas of nanocomposites, fracture mechanics, optical fiber sensors, piezoelectric actuator and nondestructive evaluation. On those topics he is author or coauthor of more than 80 journal articles. He has been pursuing research in nanocomposites that carbon nanotubes and graphenes are incorporated to enhance the mechanical and electrical properties. Current projects involve investigating nanocomposite films, such as buckypaper and its applications.</p>
